

This ring sizing ribbon can be printed and cut out to help determine the correct ring size you may need. Please pull the ribbon to be the same firmness on your finger as you would expect your ring to be. We suggest that you leave it slightly loose, so that the ribbon can still be turned with slight ease. Once you have cut the sizing ribbon out, just place it around the finger you are buying the ring for and note what size the star end finishes on.

* Please note that each printer will print differently and that this ribbon should be approximately 8 centimeters in length or 3.15 inches. However, please remember this is only a guide.
